In 2020 legacy gifts were valued at £3 billion per annum.

By 2030 UK charities are predicted to receive £5 billion in legacy income, with this rise set to continue.

With 1 in 3 people now relying on an inheritance, will claims against charities are only going to increase.

Within minutes, our online tool lets you know how serious the claim is, and provides the facts you need to understand the situation.

The Claim Checker draws on the experience and expertise from the UK's only inheritance dispute specialists, IDR Law.
